

Hosting a Home: Live Art Salon

Popular in the 17th and 18th centuries Literary Salons were inclusive public/private spaces where ideas could be discussed and radical thoughts could be activated.

Home Live Art aim to reinvent and reimagine these hotbeds of creativity by curating a series of Performance Art Salons in Hastings.

Over the course of one evening performances from some of the most exciting local and national artists will take place in front of an audience in different spaces inside a regular house.

Each individual performance will be made specifically for space within the home (eg. living room, garden, hall etc) and each Performance Salon will have minimum three performances. The audience size will be agreed in advance and vary according to each home.

We are currently seeking local home dwellers that would be interested in hosting a Performance Salon event in their home. Could it be you?

Email Katy at katy@homeliveart.com for more details on how to be involved.

FAQs for hosts

What are the timings on the day?

Home Live Art and the artists usually arrive late afternoon to setup, Guests arrive early evening, and the whole event is over by 10pm at the latest.

How do people get tickets?

Tickets can be reserved via the Home Live Art website one month before the Performance Salon with the location sent privately to ticket holders the day before the event – your address will not be made public at anytime.

Will my home be safe?

Yes. Home Live Art audiences are hugely respectful towards their Hosts, and our team will be on hand to clean up after every performance. In the unlikely event of something going wrong, we will accept full responsibility for any damage incurred.

Will the neighbours complain?

We encourage our artists not to use amplified sound, so the noise level is kept quite low. Also, our Salons are relatively short, normally finishing before 10pm. Of course, you can always invite the neighbours along!

Can my friends come?

Definitely! A few spots are always reserved for friends of the Host.
